

Alt – Codes for German

These codes work with most fonts. Remember you must use the number keypad, not the top-row numbers for Alt-codes. Simply hold down Alt- while typing the numbers on the keypad. Check to make sure 'Numbers Lock' is turned on

ä - 0228	Ä - 0196
ö - 0246	Ö - 0214
ü - 0252	Ü - 0220
ß – 0223	€- 0128

If you are using a keyboard with no number keypad, here is another way to do umlauts:

Control + Shift + : - Lift your fingers. Then type a, o, or u.

For capitals, do the same thing but hold down shift while typing a, o, or u.

For ß – use Control + Shift + &. Lift your fingers and type s.
